

PANASONIC HARIT UMANG 2022-23

Sl No-	Time period of the week (The beginning date - The end date)	The date on which the meter reading is taken	Meter reading for the week (in kWh)	Total electricity saved in that particular week (compare it with the last week's electricity consumption)
1)	1 Nov 2022- 7 Nov 2022			
2)	Dates			
3)	Dates			
TOTAL ELECTRICITY SAVED DURING THE WEEKS				
*AVERAGE WEEKLY CONSUMPTION OF ELECTRICITY IN THE SCHOOL/COLLEGE BEFORE THE CONTEST (The students can calculate this value by dividing the monthly consumption of electricity in the school/college (which can be obtained from the monthly electricity bill) by four).		Mention the weekly consumption (in kWh) here		
*AVERAGE WEEKLY CONSUMPTION OF ELECTRICITY IN THE SCHOOL/COLLEGE AFTER THE CONTEST. (This would be the mean value of electricity consumption of all the weeks added together and divided by the number of weeks).		Mention the weekly consumption (in kWh) here
